

## **Solstice**

**An exhibition to celebrate life resuming its course along with the bloom of summer.**

Launch Date: June 21st 2021

End Date: August 21st 2021

Spatial Link : À venir

Description of the exhibition:

***“And so with the sunshine and the great burst of leaves growing on the trees, just as things grow in fast movies, I had that familiar conviction that life was beginning over again with the summer”*** - F. Scott Fitzgerald, The Great Gatsby

0x Society, the first crypto art centre in Canada, is delighted to present **Solstice**, its first crypto art exhibition in collaboration with SuperRare, featuring unique creations from [Annibale Siconolfi](#), [Josh Pierce](#), [Smecccea](#), [Clement Morin](#), [Cath Simard](#), [Raphael Lacoste](#), [Melissa Mathieson](#), [Sean Mundy](#), [Blake Kathryn](#), [Dániel Taylor](#), [parrott\\_ism](#) and [Kristian Levin](#).

Inspired by the summer solstice and the feeling that everything is beginning over again after months of lockdown, the first part of this exhibition will launch on **June 21st, 2021**. It will take place in [Spatial.io](#), where visitors will be able to interact with each other live as avatars. This summer, it will also be presented in-person at 0x Society’s crypto art museum, located in Montreal, Canada. Each NFT artwork will be available for purchase to collectors around the world on SuperRare and some collectors will also receive an Infinite Objects frame of the NFT from the artist.

Each unique creation will be exploring our relation to seasons and time. The name “solstice” actually comes from the latin words *sol* (sun) and *sistere* (to stand still). From June 21st and after, nights get shorter and in some parts of the world, it never really gets fully dark at night. On solstice’s day, when the sun’s position reaches its highest point around noon on the day of the summer solstice, it will appear to stand still for a short period of time - like an ethereal feeling of eternity. We wanted to recreate this feeling: when the sun is shining, and it feels like the clock has stopped ticking.

The **Solstice** exhibition aims to represent the culmination of everything we have been through as a society in the past 16 months: it is a celebration of life beginning all over again.
